

Survey Experience

Foit-Albert Associates, Architecture, Engineering and Surveying, P.C. has the experience and capability to handle your Professional Land Surveying needs from start to finish - from the boundary survey for the conveyance of the property, through the preliminary planning stages, to the final record mapping. We have been providing professional services to our clients throughout New York State and Pennsylvania since our creation in 1977.

Our expertise ranges from boundary surveys of residential and commercial properties, ALTA/ACSM Land Title Surveys, 1A and 2C survey and certification of wireless telecommunication facilities, to topographic surveys for architectural and engineering support. Foit-Albert's survey field crews are equipped with current state-of-the-art equipment supported by CADD graphic workstations, giving us the capability of producing efficient "field to finish" surveys. We operate in a variety of CADD platforms to remain flexible to our client needs.

Foit-Albert Associates can assemble a professional, experienced team that can best provide the level of quality of service our clients expect and require.
